"The General Assembly of 1921 approved a budget of equipment needs for this Mission for a period of five years. We have waited patiently for some response, but up to the present time, out of a total budget of over \$ 500,000.00 requested, only about \$15,000 has been received and about \$30,000 promised to be paid within a period of ten years.

"The Charleston Assembly of 1922 allowed the campaign to extend over a period of ten years, unless special individual efforts were made to secure the total amount before that time.

"The situation in this country is such that we are left with practically no option as to whether or not we shall continue to work without the equipment required. Unless we can in the near future provide this equipment, we shall automatically retire from institutional work, which is considered vital to our success. Moreover, the original estimate submitted for a period of five years will doubtless prove inadequate for a period of ten years.

"In view of the above statements and inasmuch as a way has been provided by the General Assembly and the Stewardship Committee for the securing by private effort of our part of the total amount asked, BE IT RESOLVED that we send Cap't. M. L. Swinehart home to co-operate with Mr. Melvin, the Stewardship Committee and the Executive Committee in the securing of these equipment needs, for such time as may be necessary."

In connection with this report it is interesting to note that a credit of \$4,989.78 is given to Mr. E. F. Willis' account, for premium received on Drafts sold on the Field.

The plan of holding meetings of the Ad Interim Committee at fixed intervals during the year, as ordered by last Annual Meeting, has proved to be very satisfactory and not only have the emergency affairs of the Mission been disposed of much more satisfactorily than by the Circular Letter plan, but the Mission has also been able to keep in closer touch with correspondence with the Executive Committee, to act promptly on matters presented for Mission consideration and action. It is therefore hoped this plan of holding meetings of the Ad Interim Committee at regular times and at intervals of not more than three months, be continued.

Different Stations interpret differently the request of the Executive Committee to turn over to the Mission Treasurer the balances in individuals' hands at the end of the fiscal year. Uniformity in this matter is very desirable and action of the Mission to determine the general practice to be followed in such cases, is suggested.

Two years have elapsed since the General Assembly at St. Louis passed the action authorizing the Campaign for Five Million Dollars for benevolences. Our Mission is advised that

\$3,500.00 has been received on that Fund and placed to our credit.

After considering what has been done, together with the results; I am of the firm conviction that we will not receive the funds needed for meeting our equipment program unless we send a representative to America whose business it shall be to solicit and collect the funds for this purpose. Actions by the Stewardship Committee as interpreted by Dr. E. W. Smith D.D. grant permission to individuals, the Mission or Executive Committee to enter upon such a program and proceed until the full amount apportioned to such Executive Committee is raised. While it might seem selfish for one Mission to attempt to carry out such a program, in view of the recent developments, the Korean Mission is justified in so doing.

Respectfully submitted

Secy Treas.

Miss LILLIE LATHROP, Secretary

ANNUAL REPORT OF LEPER HOSPITAL COMMITTEE 1922-23.

The Kwangju Leper Colony is crowded as usual and there are now in our little family 540 lepers. We are happy to be able to report progress in all the work.

Owing to outside gifts from several sources, various circumstances, certain policies, and the fact that we are hoping to expand we had on hand at the end of the year Yen 11,517.63. We hope that in the future such fund can be used to enlarge the work and meet the urgent needs that face the work every day.

The work in the colony has been so well organized that the every day running of the work is comparatively easy. Much of the work is on their shoulders and it is remarkable how they have made a happy home for themselves. Several kinds of industrial work are being carried on in the colony; shoe making, blacksmith work, basket work, cloth making and we are now making the thread with which we make the cloth.

During the winter we entertained in our "Flats" (Huts) about 100 guests. Among these were some of the worst cases you can imagine and the sight of them was enough to break your heart and the pity was that we were able to do so little for them. These cases were kept during the six months of winter. The happy part of this phase of the work was that is last winter not one such case was turned away. The cost per leper per month was less than Yen 4.00.

The new medicine, ethyl esthers, is being given to every case and it is a joy to report that last April, 5 cases were turned out as probable cures. The future looks bright for the leper if this medicine has the curative properties claimed for it, and the lepers at Kwangju are receiving treatment under the latest methods.

It is the desire that every leper's family should do for him all they are able. There is no use going into the merits of every parent or relative, in so far as he is able caring for his own. To this end the Leper Committee at Kwangju has approved a plan whereby a thorough investigation is made of each leper to determine the actual condition of his family. This is done with the aid of the Police Department. It is the hope that those who send us patients will not feel amiss when we apply the same rules to every case without exception. We have the whole interest of the leper at heart and when the case is investigated, if he is really able to pay nothing, he will be received free.

A new phase of the work that has been taken up is the interesting of the Korean Church in doing their part in the interest of the lepers. This work has the hearty approval of Dr. Fowler, Secretary of the Far East for the Mission to

Lepers. Some work was done in this regard this spring and already a good start has been made.

It is a source of much gratification that the government has realized the need of the lepers as well as the work that has been done for them, and made a substantial appropriation to the three colonies at Kwangju, Taiku, and Fusan. This appropriation, it is understood is to come every year.

A five days meeting was held in the colony last fall by Kim Ik Doo. All seemed to be touched by his message and many renewed their allegiance to the Lord. Pastor Kim of the South Gate Church, Kwangju is the regular pastor. He holds services two Sundays each month and teaches a regular Bible Course. The Christian Endeavour has a membership of 116. They carry on the services of this organization in regular Christian Endeavour fashion. On one Sunday in Jan., 66 were baptised into regular fellowship in the church. A sacred sight it was to see these cripples, outcasts, and even blind come before the throne and accept the Lord of Glory as theirs. The church has now 233 baptised members and all in the colony have the gospel preached to them. It is the aim of those in charge never to let any leper come into the colony without having Christ presented as their Saviour and it is the primary aim in the conduct of the work, that all shall aim at and head up in one thing, the saving of the souls of these especial people who except in exceptional cases would not have this Gospel preached to them.

Respectfully submitted,

REPORT OF COMMITTEE ON OUR PROPERTY AT THE SEMINARY.

Your Committee would report ;

1. That the Third Prof's cottage has been in constant use during the year, Professor Parker and family living in one half of it and our representatives on the Faculty of the Seminary, Messers Bell, Bull and McCutchen, occupying the other half during their respective terms of work in the Seminary.

2. That in pursuance of the permission granted by Ad Interim Committee, the (김도일) property adjacent to the north of our Seminary Professor's site has been secured and the two properties divided into three house sites, two for Seminary Professor's homes and sites and one for our college Professor's home.

3. That work is well on the way on the residence for the family of Professor W. H. Parker, and that they will be permanently housed therein this Fall.

4. That after numerous conferences with the Board of Trustees and the Faculty of the Seminary, your Committee recommends our Mission's cooperation in the permanent organization of the Seminary as a Union Institution and the turning over of our Seminary property ; viz. the Dormitory, and professor's cottage and sites for two Seminary professor's homes to a Holding Committee under the appended agreement ;—

5. That your Committee be instructed to at once take steps to transfer the College professor's house and site to our Mission's Board of Trustees, Legal Person or Zaidon Hojin.

REPORT OF COMMITTEE ON EDUCATION OF MISSIONARIES' CHILDREN.

1. That we put Yen 500 as a preferred item for the Pyeong Yang foreign school in the 1924 General budget.

2. For the current year we recommend that the stations provide from their budget Yen 500 in the following

proportions, Kwangju Yen 120 Chunju 110, Kunsan 80, and Soonchun 90.

3. It was recommended there be a Committee in charge of the foreign school in each station consisting of the patrons of the school and two other members selected by the station. This Committee to make reports to the station.

We recommend that these schools correlate their courses as much as possible with the Pyengyang school for foreign children.

Respectfully submitted,
Committee on Education of
Missionaries' children.

REPORT OF THE MEDICAL COMMITTEE.

1. We recommend that with the consent of the stations concerned, Dr. Gilmer be put officially in charge of the health of missionaries of Kwangju station until Dr. Wilson returns.

2. We report, in answer to Kunsan's request for a training school for nurses, that while we approve of such a school we recommend that action upon it be deferred.

3. We recommend that the Budget for Severance Medical College be referred to the Finance Committee without recommendation.

4. We recommend that no medical consultation be called by missionaries until the doctor in charge of the station in which patient resides is consulted in regard to same. We call attention to the rules of the Executive Committee on this subject, as found in the Manual.

Respectfully submitted,
Medical Committee.

REPORT OF EDUCATIONAL COMMITTEE.

1. In view of the large amount of funds required, the difficulty of securing qualified teachers, and the smallness of the supporting church constituency we recommend that we take steps to have in the Mission only two recognized high

schools, one for boys and one for girls, until these become fully established. The details as to the location of these schools are to be referred to a joint meeting of the finance and educational committees.

2. We recommend that these two schools be not in the same Station.

3. We recommend that the following plan be followed in arriving at a decision as to the location of the recognized schools.

First: That five minutes each be given representatives of Chunju, Kunsan and Kwangju to present the advantages of their respective Stations to be the location for the boys' recognized school.

Second: After special prayer a secret ballot shall be taken.

Third: That one representative from each of the Stations which so desires shall be given five minutes to present the advantages of that Station to be the location for the recognized Girls' School of the Mission, after which a secret ballot shall be taken.

4. We recommend that after April 1, 1923, the Station schools other than the schools to be recognized do not run more than the first two high school grades.

5. We recommend that the chairman of the Mission and the chairman of the Educational Committee be a Committee to answer requests for the recognition of Kunsan Boys' School presented by representatives of eight bodies and certain requests presented by students of said school.

F. M. EVERSOLE, Secretary.

REPORT OF THE EVANGELISTIC COMMITTEE.

1. We approve of the policy of supplying Mr. Bell with a literary assistant.

2. In answer to the request from Kwangju station on the subject of framing a more definite policy on reducing the Mission's contribution toward helpers' salaries, we recommend;

First: That the Mission overture each of the Presbyteries with which we affiliate, that in view of the great desirability of having the churches entirely support their helpers, they consider the advisability of adopting the every member canvass plan of our home church for vigorously promoting self-help.

Second: We recommend that as a policy for employing evangelists in new territory, we limit the time of caring for work in newly established groups by such evangelists to twelve months in country places and eighteen months in magistracies, unless the station in exceptional cases approves another six months.

Third: We re-emphasise the imperative need of our lady evangelists doing personal visitation and class work among the country churches and the need of organising the woman's work in the country groups; and we urge our ladies to so cooperate and conserve their strength and forces as to increase the amount of time spent in country work, going two by two if necessary, and to leave the station's woman's work as far as possible to those whose circumstances make it impossible for the mission to assign them itineration.

4. That we ask our ladies after prayerful conference to bring in practical suggestions as to how to make itineration less difficult and more effective.

5. We suggest that Friday night be given over to Evangelistic problems including country schools, and those having questions on these subjects to hand them in to the Evangelistic Committee by the Thursday night Session.

6. Inasmuch as the matter of a Bible school for Kwangju station is so intimately linked up with our entire woman's work we request a meeting of the ladies of the mission at which this proposed school shall be considered and if possible a plan be reported to our Committee by which this proposed school can be correlated with our existing institutions.

7. That there be sent in the name of the Mission a letter of thanks to our Executive Committee and to the Worlds S. S. Association expressing our appreciation of the sending out to

our Mission of Dr. Thompson and also a letter of appreciative welcome to Dr. Thompson.

8. We submit the following tentative schedule of Dr. Thompson's itinerary.

Jan—and Feb.—Institutes and classes within our Mission.

March—Pyeng Yang Seminary.

April—Seoul and classes in other points.

May—China.

June—Various Annual Meetings, in Korea.

9. In answer to Soonchuns request for another nurse to enable Miss Greer to give half time to distinct evangelistic itinerating and nurses training we recommend that this be granted and in view of the fact that Miss Greer goes on furlough in 1924 that this call be put in at once.

1. In answer to the report of the Committee from the Ladies' Meetings, on another Bible school, the Committee makes the following recommendations.

In addition to the regular Bible Institutes for women we recommend.

1st. That there be two special Bible Institutes for women, one in Kwangju and one in Chunju, to open Oct. 1st and close March 20, or Stations to arrange dates.

2nd. That these Institutes have for their aim the giving of Bible training to women not yet prepared to enter the mission Bible school.

3rd. The curriculum be so arranged as not be overlap this school and be preparatory to it.

4th. This permission is given with the understanding that these institutes do not interfere with the normal country itinerating of the itinerating ladies or other assignments.

5th. The matter of principals of these institutes be left to the stations concerned.

6th. Self supporting students from other stations may be received upon a recommendation from the station where they reside.

16. We suggest the following itinerary to Dr. Logan during his visit to our various stations for work among the Japanese.

Single lady evangelists. Owing to the distressing condition of our country woman's work due to the many vacancies that have arisen over removals and breakdowns, we call the attention of our Executive Committee to and urge upon them the urgency of sending out at once four single lady evangelists to fill these vacancies namely one at Chunju in place of Miss Austin, one at Kunsan in place of Mrs. Bell, one at Kwangju in place of Miss Dodson and one at Soonchun in place of Mrs. Dodson née Knox.

18. In addition to these four we reiterate our call for the following single lady evangelists.

1st. Chunju in place of Miss Tate, 2nd Kwangju, 3rd Soonchun, 4th Kunsan, 5th Mokpo.

19. Nurse 1st Soonchun, 2nd Severance.

FINDINGS OT THE EVANGELISTIC CONFERENCE.

1. The development of the Churches may be promoted by :—(a) Visitation to the church in which a sympathetic response is made to all courtesies received (b) Nurturing spirit of responsibility in the church (c) Careful examination by the pastor of all the records.

2. The training of helpers may be effected by Bible study with the one in charge of the work through the use of

catechetical lessons and examinations, and by circulating libraries. For personal work the example of the missionary is essential.

3. Church Finance : The need of educating the church in giving is stressed. The every-member canvas and the budget system is commended.

4. Opening groups : It is found that if an invitation is secured from the village the work will be better received. Thorough preparation for work in a given place should be made. From the start secure the interest and cooperation of already established nearby groups which shall follow up the work and take the oversight of the new group.

5. The preaching of the gospel is the weapon for meeting modernism.

It will be necessary for you to be familiar with the history of doctrine and apologetics and the trend of modern thought to successfully combat these ideas which are so popular, especially among young men.

6. For work in unevangelized territory while it is evident that it is desirable to have the best prepared man possible, owing to the possible effect it might have on the principle of self-support, it would seem advisable not to put ordained men on Mission pay for this work, but rather to urge the Presbytery to do this work.

REPORT OF SUMMER RESORT COMMITTEE.

Your Committee would report some progress in the matter of securing permission from the authorities and owners to establish a camp on Chidisan.

The Government-General at Seoul informed us that the desired site was outside the tract granted to the Government-General for experimental purposes in afforestation, and that the right to grant us a permit to occupy the same was vested in the Imperial University.

The Governor of South Chulla used his good offices to secure permission to camp on the mountain in the summer in 1923, and a Committee consisting of Messrs. Linton and Swinehart of our Mission, and Rev. J. F. Macrae of the Australian Mission was appointed to call upon the University Officials at Tokyo, and petition them for a permanent lease of the desired tract of land.

Permission has been given to camp on the mountain in the summer of 1923.

Faithfully submitted,
Summer Resort Committee.

REPORT OF BIBLE COMMITTEE.

Two meetings of the Bible Committee of Korea have been held since last Annual Meeting, viz. one in Sept. 1922 and one in February 1923. At each of these meetings four out of our five representatives were present.

At the fall meeting of the Bible Committee the publication of the entire Old Testament in one volume in No. 6 type was ordered. This has proved highly acceptable to the Koreans and is greatly appreciated. It is now on sale at all book rooms.

Besides regular publication of the Scriptures, the chief matter of business before the Committee has been that of revision. Due to differences of opinion as to principles of translation there has been difficulty within the Board of Revisers. Being unable to concur in certain principles of translation Mr. Erdman resigned from the Board. Dr. Gale also resigned but was prevailed upon to reconsider his resignation.

After much discussion, at the meeting of the Committee in February, by a vote of twelve to three, the publication of a version based on Dr. Gales's individual revision was authorized.

At this meeting (Feb.) the Board of Revisers was re-organized with a membership of five. Messers Cable, Engel, Erdman, Hardie and W. M. Clark were elected to constitute the Board.

We recommend that our Mission approve Mr. Clark's doing this work as he shall be able in addition to the work to which he has been assigned in the Christian Literature Society.

REPORT OF THE JOINT MEETING OF THE FINANCE AND EDUCATIONAL COMMITTEES.

1. We report that it is the judgement of the joint committee that by an adjustment of the School Permanent Equipment Budget there are sufficient funds to provide buildings and equipment for the two recognized schools; it being understood that the industrial plant for the boys' school would be a part of the recognized boys' school. This would leave sufficient funds to provide for the desired improvement in the remaining schools.

2. We recommend that all residences be cut \$2,000.00 each from the original budget, and that we adjust the balances with the educational budgets, thus giving \$220,000.00 as a basis for the adjustments of the educational budgets.

3. We recommend that \$50,000.00 each be given for the academical departments of the recognized boys' and girls' schools, and \$20,000.00 for the industrial department of the recognized boys' school.

4. We recommend that the permanent equipment budgets of the remaining schools be as follows:

	Boys' Schools.		Girls' Schools.
Chunju,	—	\$10,000.00
Kunsan,	12,500.00	9,000.00
Kwangju,	12,500.00	—
Mokpo,	16,000.00	13,000.00
Soonchun,	15,000.00	12,000.00

5. We recommend that the current budgets be as follows:

	Boys Schools.		Girls' Schools.
Chunju,	₩ 12,000.00	₩ 5,000.00
Kunsan,	7,000.00	4,000.00
Kwangju,	7,000.00	8,000.00
Mokpo,	7,000.00	5,000.00
Soonchun,	7,000.00	4,000.00

6. We recommend that the country school budgets be the same as recommended by the Finance Committee.

Respectfully submitted for the Joint Committee.

WM. A. LINTON, Chairman.

WM. P. PARKER, Secretary.

ACTION BY MISSION MEETING, KUNSAN, KOREA.

June 13th-23rd.

"The General Assembly of 1921 approved a Budget of equipment needs for this Mission for a period of five years. We have waited patiently for some response, but to the present time, out of a total budget of over \$500,000.00 requested, only about \$15,000.00 has been received and \$80,000.00 promised to be paid within a period of ten years.

The Charleston Assembly of 1922 allowed the campaign to extend over a period of ten years, unless special individual efforts were made to secure the total amount before that time.

The situation in this country is such that we are left with practically no option as to whether or not we shall continue to work without the equipment required. Unless we can in the near future provide this equipment, we shall automatically retire from institutional work, which is considered vital to our success. Moreover, the original estimate submitted for a period of five years will doubtless prove inadequate for a period of ten years.

In view of the above statements, and in as much as a way has been provided by the General Assembly and the Stewardship Committee for the securing by private effort of our part of the total amount asked, **BE IT RESOLVED:--**

That we sent Capt. M. L. Swinehart home to co-operate with Dr. Melvin, the Stewardship Committee and the Executive Committee in the securing of these equipment needs, for such time as may be necessary.

AD INTERIM COMMITTEE MEETING MINUTES.

Kwangju, Korea. Oct. 10 & 11, 1922.

Pursuant to the order of the Mission, Ad Interim Committee met on October 10, 1922, at the home of Mr. Swinehart, at 9:00 a. m., with the following members present: Messrs, Knox, Preston, Hopper, Linton, Winn (in Mr. Tate's place), McCutchen, Crane, Talmage, Nisbet, McEachern and Swinehart.

Following devotional exercises, Mr. Knox was elected Chairman of the Committee and Mr. Swinehart acted as Secretary. Mr. J. C. Crane was elected Recording Secretary. On motion the communications were read, after which the following docket was adopted:—

1. Communications
2. Requests of Stations
3. Finances

The communication from H. T. Owens, Secretary of the Field Board of Managers of Severance Institutions, relative to building residences on Severance Compound, was referred to Annual Meeting, as none of our representatives on this Board was present.

On motion it was ordered that we reply to the Field Board of Managers of Severance Institutions, agreeing to provide our proportion of the taxes assessed against Severance property, provided Executive Committee's approval is secured, the present rate chargeable to our Mission being about Yen 350.00 annually.

The matter of participating in the Insurance of Severance Institutions was referred to the Executive Committee for consideration, with a recommendation that approval be given if the financial situation will permit. At present this amounts to approximately Yen 150.00 per year.

It was moved and carried that we accept the offer of the Executive Committee of the Christian Literature Society to build a house for Rev. W. M. Clark, and agree to assume the cost of same when our financial condition will permit, provided that plans, cost, location. etc. be approved by our Mission.

Ordered, that Messrs. Preston, McCutchen and Linton be appointed a Special Committee to draft a resolution and covering letter to the Executive Committee, relating to the matter of Miss Matthews' return.

Messrs. Crane and Swinehart were appointed as the Mission's representative on the new Sunday School Association.

The meeting adjourned with prayer.

OCTOBER 10th, 2:00 P. M.

The meeting was opened with prayer by Mr. Linton. Minutes of the morning session were read and approved.

It was moved and carried that in reply to the communication from the Committee of Reference and Counsel, Foreign Mission Conference of N. A., in regard to a sanitarium for missionaries, we answer: question one, affirmatively; question two, affirmatively; question three, affirmatively; question four, affirmatively; the Secretary being ordered to send accompanying letter of explanation.

Ordered, that we notify the Executive Committee that we approve of the request allowing Mrs. Harrison to raise \$250. for publication of Korea text books for nurses, it being understood that this be raised without the bounds of our church.

Ordered, that Dr. J. B. Patterson and Capt. M. L. Swinehart be appointed to enlist the cooperation of the Peking Union Medical College in establishing research work on sprue for ferreting out the disease.

Moved and carried, that Mr. Parker be appointed in Dr. Reynolds' place on the Property Committee of Pyeng Yang.

Moved and carried, that our Secretary be instructed to write our Executive Committee protesting against the representation that \$500,000. will meet the immediate equipment needs of our Mission, and that the Executive Committee be urged to take such steps as may be necessary to carry on a campaign for a least one million dollars for Foreign Mission Equipment this year, the balance of the two and one half millions to be raised within the next three years, since our needs are more urgent than when the campaign was presented, and the very existence of our educational and medical work is imperiled on account of inadequate equipment.

Ordered, that Mr. Swinehart be allowed a vacation according to the recommendation of the doctors.

Moved and carried, that Dr. C. A. Logan be invited to hold a series of evangelistic meetings among the Japanese of our stations following Federal Council next year.

Ordered, that Miss Dupuy's name be added to those granted furlough in 1923.

Ordered, that the Executive Committee be asked to advance Yen 200 of the Permanent Equipment Budget of Kunsan to repair the house for Dr. and Mrs. Levie.

Adjourned, to meet at eight p. m.

OCTOBER. 10, 8:00 P. M.

The meeting was opened with prayer. The minutes of the previous session were read and approved. The letter of the secretary in regard to the Equipment Campaign was read and approved.

The report of the Committee appointed on Miss Matthews' return was read and adopted as amended, as follows :

"In answer to the communication from Dr. Chester regarding Miss Matthews, we reply as follows :

1. That the Apportionment Committee of the Mission, as the last meeting of the Mission in June, made earnest efforts to secure a call for Miss Matthews in the medical work of our five Stations and in the Union Medidal College, but without success.

2. The Mission, at its last meeting, decided that in view of the urgent need of reinforcements in other departments of the work, we could not put in a call for a Trained Nurse for the missionaries, although at that time there was a request from one station for Miss Matthews for that purpose.

This consideration together with the one mentioned above, explains the reconsideration of the previous year's majority vote asking Miss Matthews' return (See covering letter, which has been read and adopted by this Committee.)

3. Inasmuch as great embarrassment has been caused the Executive Committee, Miss Matthews, and her supporters at home on account of our previous decisions, we express our deep regret and assure the Executive Committee that, if they think it advisable, under the circum-

stances, for the best interests of the work at home to return her, we defer to their judgment and will co-operate in every way possible to give Miss Matthews a second chance to find a place of service on the field.

4. We assure all concerned that Miss Matthews is held in the same personal esteem on the field as at home, and we are sure that the action of the Mission was not based upon personal dislike or prejudice against her, but was taken dispassionately and with full consideration of the interests of the work."

Mr. McCutchen was asked to reply to the communication from Kim Choong Soo.

The Secretary and Mr. Talmage were ordered to take steps looking toward making the Mission a Juridical Person.

Ordered, that Mr. Unger be put in charge of the Leper Colony.

Ordered, that, with deep gratitude to God for her marked improvement in health, the action granting Miss de Haas sick furlough be rescinded.

Ordered, that Mokpo's request to be allowed Yen 100 or more from medical work to cover sick expenses of school girl in Japanese hospital be granted.

Moved and carried, that we approve Miss McMurphy's request to enter Evangelistic Work after furlough, and that the request for a Lady Evangelist for Mokpo be changed to that of Educational Worker to take her place.

Ordered, that Miss Dodson be sent to Soonchun to take charge of the girls' school until next Annual Meeting, and that Miss Julia Martin be assigned to assist in Kwangju Institute, it being understood that Miss Dodson fill her engagement in Chunju Bible School May 1st.

Ordered, that Kwangju be released from the engagement at Kunsan's Women's Class, this assignment to be left to Kunsan Station.

Meeting adjourned, to meet at nine a. m., October 11th.

OCTOBER 11th, 9:00 A. M.

The meeting was opened with prayer by Mr. M. L. Swinehart. The minutes of the previous session were read and approved.

On motion it was ordered that the Executive Committee be asked to allow the sale of native house and site in Soonchun, former Girls' School dormitory, and that the proceeds (Yen 300) be applied to the permanent equipment needs of the school.

Moved and carried, that permission be given to erect a temporary dormitory of four Kan at Girls' School at a cost of about Yen 200 and to add another room to station gate house at cost of Yen 150.; all to be paid for out of permanent equipment funds on hand. All in Soonchun station.

Ordered, that Mr. Talmage be released from the Mokpo Institute and go to Chaiju for the Men's Class, time and place to be arranged by Mr. Talmage in consultation with Chaiju Pastor.

Moved and carried, that Miss Knox be reassigned to Kwangju, assignment language study, and that Soonchun be placed first in order on call for single lady evangelists.

Moved and carried, that Yen 100 deficit on The Seminary Review, and Yen 120 for Mr. Parker's secretary, be provided if possible out of unexpended balances at end of the year; that the secretary so advise the parties, and if this arrangement is impossible, the Mission cannot meet these items.

Ordered, that Chunju be asked to provide its own deficit on country schools.

Ordered, that the matter of \$1000 advanced by Mr. Willis on Kunsan's Budget be referred to that station with request that they report adjustment of same out of permanent equipment budget to next Ad Interim Committee.

Moved and carried, that Kunsan be asked to care for present deficits, except on repairs, and that they be allowed to borrow from the above \$1000.00 to cover the present Repair deficit, upon approval of the Executive Committee or until such time as it can be provided for in the budget.

OCTOBER 11, 2 P. M.

The meeting was opened with prayer. The minutes of the morning's session were read and approved.

Ordered, that we receive Mokpo report on budget and advise Mokpo Station that the Committee sees no way to meet deficit on girls' school except by direct appeal to the Executive Committee, and that they cut down the expenses of the school and endeavor to meet this amount.

AD INTERIM COMMITTEE MEETING MINUTES.

Kwangju, Korea, Feb. 1-3, 1923.

Ad Interim Committee met, pursuant to adjournment, at 8 o'clock p. m., on February 1, 1923, with Messrs. Linton, Winn, Knox, Nisbet, McEachern, Talmage, McCutchen, Hopper, Preston, Crane, and Swinehart present.

Chairman Knox led in devotional exercises.

Communications were ordered presented by title, and referred to the proper place on the docket.

The Committee here considered the appropriation for 1923-24 as reported by Mr. Willis, and the following resolution was adopted:

Resolved:—That in acknowledging receipt of the letter from Mr. E. F. Willis, Treasurer, advising us of the appropriation made for our Mission for 1923-24, we express our appreciation of the Committee's efforts to keep us provided with the necessary funds for carrying on the work, and that, although this amount effectually prevents us carrying out the plans which in our own judgment the exigencies of the work call for, we gratefully accept the amount appropriated, depending upon our Mission Treasurer to secure an additional appropriation covering the necessary expenses for Language Teachers, Itineration, Mission Meeting, etc., of the new missionaries, none of which has ever been entered on any of the budget appropriations granted us.

On motion, it was ordered that in view of the fact that our Executive Committee feels it unwise to pay taxes on Severance property under existing conditions, and that this item is embarrassing Severance Medical College in view of our relations thereto, we urge the Executive Committee to increase our regular apportionment to Severance to an extent large enough to cover this amount.

The following was adopted and ordered sent to the Executive Committee:

"The Ad Interim Committee has received with deep regret letters of resignation submitted by Dr. Patterson to the Executive Committee and to his station. We have read with hearty approval Mr. Swinehart's personal letter of December 27, 1922, to Dr. Patterson, replying to his letter of resignation to the Executive Committee.

From Dr. Patterson's own statement to the Committee at this session, we are convinced that his attitude on the matters mentioned was due largely to the poor state of his health entailed by overwork and unrelaxed devotion to his professional duties.

Inasmuch as Mrs. Patterson's health is also impaired, we are advising a six month's rest away from home but on the field, for Dr. Patterson and his family, and express our confident hope that this will restore them sufficiently to enable them to carry on their work until their regular furlough. We have urged Dr. Patterson to reconsider his resignation, and we advise the Executive Committee to concur with us in this action."

We approve the action of the Special Committee on College Professors' houses in Pyeng Yang in making exchange of property in Pyeng Yang.

We recommend that the site to the extreme East, designated in the plat as site No. 8, be assigned to Prof. W. P. Parker, and that he be directed to proceed with the erection of his residence on that site.

That the Kim Tong Ill property be turned over to the Special Committee on College and Seminary' Professor's houses in Pyeng Yang to convert into out-houses for three residences, or if sold, to use the proceeds for building these out-houses.

Died, November 30, 1922.

To the memory of our friend Mrs. Ada Hamilton Clark (Mrs. W. M. Clark), we, the Korea Mission of the Southern Presbyterian Church, lovingly dedicate this page of our minute book as a token of our high appreciation of her strong and sweet Christian character. Mrs. Clark's brief thirteen years spent among us endeared her to all. A talented musician, gifted linguist, devoted wife, beautiful mother and consecrated Christian worker has gone home to a higher service. She has gone from us but the fragrance of her beautiful character abides with us still.
